

Sandy Lane Nursery and Forest School

Garden Room Long Term Learning Challenge Curriculum Summary

	AUTUMN TERM		SPRING TERM		SUMMER TERM	
	First Half Term	Second Half Term	First Half Term	Second Half Term	First Half Term	Second Half Term
INTENT	OUR BIG QUESTION What do I know about me?	OUR BIG QUESTION Why are there so many leaves on the ground?	OUR BIG QUESTION What do you know about winter?	OUR BIG QUESTION How do we know it is spring?	OUR BIG QUESTION Where do plants and flowers come from?	OUR BIG QUESTION How have we changed?
IMPLEMENTATION	<p>Children will engage in a range of adult directed carefully planned and sequenced activities to support all aspects of their learning and development. In addition there will be opportunities to practice and refine new learning through engagement in continuous provision. Here the adult role is to support and develop knowledge and skills whilst engaging those children who learn more quickly through deeper levels of enquiry. Children who may need some additional support in one of more areas of learning will take part in a range of targeted intervention programmes delivered by nursery staff.</p> <p>Adults gain children's prior knowledge of the subject area through use of discussion and mind mapping. Adults gather children's ideas of enquiry and plan teaching and learning based on children's initial input.</p> <p>Provision enhancements are added regularly linked to our 'big questions' seasonal events and children's interests. Children's experiences are also enhanced through the children having opportunities to visit new places and be visited by new people (See Below)</p> <p>Children who have attended our 2 year old provision in Sunshine Room will explore these big questions in greater depth and have opportunities to apply previous knowledge and skills</p>
